GOERGEN INSTITUTE FOR DATA SCIENCE
AT THE UNIVERSITY OF ROCHESTER

2016-2017 Seminar Series

Presented by the Rochester Center of Excellence in Data Science

Reinventing the social contract in an age of big data

Alex Pentland MIT, Datapop Alliance
Advisory Board Member American Bar Association, UN Sec. General, World Econ. Forum

Abstract: Big data is bringing a transparency that threatens everything from personal privacy to the elite corruption, and which is reinventing law as algorithm. It is also reforming our ideas about human society, rationality, and autonomy, producing a new
