

Faculty Advisors are full-time [ECE Faculty members](#) whose primary appointment is within the ECE Department. They are your first resource for questions about research within the department, course content, and information regarding graduate programs in ECE. All ECE undergraduate students must meet with their faculty advisor during the Advising period each semester.

The Undergraduate Program Coordinators can help you understand department policies and procedures, assist in declaring the ECE or AME major or minors, obtain course approvals (transfer credit/study abroad), get add/drop forms approved and processed, create program plans, register for Independent Study, and answer any questions or concerns.
